## TECHNICAL SKILLS

JavaScript	NodeJS
React	Express.js
TypeScript	SQL
Python	MongoDB
HTML	Sequelize ORM
CSS	Jest testing
Bootstrap	AWS - S3, EC2, RDS
Material UI	CICD - GitHub Actions
Git	Docker
GitHub	

## SOFT SKILLS

Adaptability  
Problem-Solving  
Time Management  
Reliability  
Conflict Resolution  
Active Listening

## CERTIFICATES

**Machine Learning with Python**  
Cognitive Class (IBM), March 2022  
**AWS Cloud Concepts**  
DataCamp, January 2022  
**Python 101 for Data Science**  
Cognitive Class (IBM), September 2021

I am a dedicated software engineer with a strong foundation in web technologies and programming languages. My expertise spans the entire development spectrum, and I excel in applying Agile methodology to deliver high-quality solutions for both individual and team projects. My commitment to problem-solving and passion for emerging technologies define my approach. As a quick learner and adaptable team player, I am poised to thrive in the dynamic field of software engineering, collaborating seamlessly with cross-functional teams to deliver impactful solutions.

## EXPERIENCE

### Full-Stack Development Bootcamp Graduate

**Code Your Future, Full-time, London, UK**

**| 08/2022- 12/2023**

- Developed various web applications using JS, React, Node.js, and SQL, both independently and collaboratively.
- Participated in code reviews, providing constructive feedback to team members.
- Facilitated daily stand-ups and weekly retrospectives to ensure team alignment and improved performance for efficient project management.
- Implemented MVP principles, focusing on essential features for meeting project requirements and user needs within specified timelines.
- Applied Slack and Miro for seamless communication, collaboration, and efficient planning in team projects.
- Crafted Docker Compose for local setup and automated deployment via GitHub Actions.
- Employed AWS services (S3, RDS, EC2) to deploy and manage scalable and reliable applications.
- Implemented CI/CD using GitHub Actions to automate Continuous Integration and Deployment, enhancing the efficiency and reliability of AWS resource updates.

### Junior Software Developer

**Konica Minolta, Part-time, London, UK**

**| 02/2022 – 07/2022**

- Completed Python programming course, focusing on code quality and unit testing.
- Utilized Flask to develop web applications, showcasing a strong grasp of its features for various functionalities, such as routing and templates.
- Gained fundamental knowledge in software development, including hands-on experience with Docker and familiarity with Kubernetes.
- Utilized Bitbucket for version control, ensuring efficient collaboration with colleagues.

### IT Technical Support

**Moshiran, Full-time, Sirjan, Iran**

**| 06/2018 –12/2020**

- Addressed and resolved network connectivity issues, including router configuration.
- Diagnosed and addressed hardware and software desktop issues.

## EDUCATION

### MS Computer Engineering, Software, with distinction

**Iran, Islamic Azad University (2017)**

Core modules: Advanced Programming - Data Structure - Machine Learning –Algorithm Design –Software Engineering.

Thesis topic: Activity recognition in smart homes with SVM.

### BSc in Computer Engineering, Software, with distinction

**Iran, Islamic Azad University (2012)**

Thesis topic: Intrusion detection system in wireless sensor networks.

## LANGUAGE SKILLS

Persian (Native)  
English

## HOBBIES & INTEREST

**Sports:** Football & Ping Pong  
**Activities:** Travelling  
**Interest:** Music

## PROJECTS

### ProTracker Web App ([Link](#), [Source](#))

- **Description:** This platform enables real-time progress tracking for trainees, aligning with current milestones. A collaborative effort involving three developers, a Project Manager, and a Technical Advisor at Code Your Future addresses a crucial need in CYF's training programs.
- **Technologies:** Node.js, Express.js, Passport-GitHub, JSON Web Token (JWT), React.js, Material-UI, ElephantSQL, ORM Sequelize, Render
- **Collaboration Tools:** Miro, Excalidraw, Slack, Figma

### Daily Deeds Web App ([Link](#), [Source](#))

- **Description:** This app is designed to manage users' daily tasks, track progress, and enhance productivity. It streamlines daily task management and boosts personal organization for improved efficiency.
- **Technologies:** Node.js, Express.js, JSON Web Token (JWT), React.js, PostgreSQL, Docker, GitHub Actions, Amazon EC2

### Video Recommendations Web App ([Link](#), [Source](#))

- **Description:** This app simplifies the management of favorite YouTube videos, allowing users to seamlessly add, like, search, and remove videos with ease.
- **Technologies:** Node.js, Express.js, React.js, PostgreSQL, GitHub Actions, Amazon Relational Database Service (RDS), Amazon S3, Amazon EC2.

## VOLUNTEER EXPERIENCE

### Shopping assistance

**Wilens Hospice Clothes Shop, Part-time, Milton Keynes, UK** | 04/2022 –11/2022

- Managed cash transactions and processed payments accurately.
- Assisted with pricing, tagging, and inventory management.
- Collaborated with diverse volunteers for store upkeep.
